

Web Communication 2026-27

This course introduces students to the principles and practice of web communication and web design, from basic HTML/CSS to JavaScript, responsive layout, and beyond. All lecture materials, exercises, and boilerplate code are published in the course GitHub repository.

Online Course resources

Resource	Link
Moodle (course page, quizzes, readings)	myariel.unimi.it/course/view.php?id=12470
MS Teams (live sessions, announcements, chat)	MS Teams team
GitHub (lecture materials & code)	github.com/ale66/learn-web
Web design playground (learn HTML+CSS online)	wdpg.io/

Logistics

Lectures run 14:30–17:30 on Friday and 9:00–11:45 on Saturday. All lectures take place in *Laboratorio 2* on the ground floor of the *Passione* building. A low-qual AV broadcast and lecture recording will be available.

Contacts

Questions on course materials, logistics etc.: please post on Teams so all students benefit from the answer.

Questions on personal project/studies: you may contact me on Teams anytime.

In-person office hours: Friday after class and Saturday before class.

9	SEO Meta tags	Project reviews

Software Tools

Tools students need installed to follow the course and complete exercises:

- **Web browser** Firefox will be used in class.
- **Package manager** to quickly install/update software. For Win: install chocolatey.org; For Mac: install brew.sh.
- **Code editor** code.visualstudio.com/; also available online at vscode.dev/
- **document converter** from pandoc.org/, used under the hood by Quarto; also available online at pandoc.org/try/
- **Renderer** quarto.org/ for authoring and rendering course materials (HTML, PDF, RevealJS slides)
- **Version control software** git-scm.com/, and a github.com/ account — for cloning the course repository and publishing work
- **A modern Git manager**, e.g. fork.dev

Exams

Prepare a Web Communication project consisting of a *pitch deck* for a technical audience, a stub web page with styles, AV contents, links etc parked on your GitHub account and coordinated with email campaign plans and social media presence (IG, FB, X, WA etc.). The oral exam consists of presenting your project and showing *ownership* of the code.

Exam dates December 18 and 19 in person at the *sala seminari* on the second floor of the *Passione* building (TBC). Arrangements are available for Erasmus/exchange students who need to leave Milan earlier. For 2027, January 13 and 14 (TBC) and dates in March and July.
